

Vehicle Training Event at Mythe Barn

Event brief

Through event management partners Ignition Online, Nissan required a spacious venue that could accommodate a vehicle alongside an initial 30 delegates within a singular conference room for two consecutive days. They also required breakout spaces for smaller sessions and a dining area.

Over 70 delegates attended the training event over the course of the two days. The main conference room at Mythe Barn – The Grain Store – allowed for the spacious display of a Nissan Leaf alongside 40 delegates in a theatre style presentation layout. Delegates were also able to relax during lunch in the Oak Barn and take in the surrounding countryside views.

Nissan were able to brand Mythe Barn with a variety of flags and banners to align with their branding requirements.

Client testimonial

"We cannot thank the staff at Mythe Barn enough for the success of the event, everyone was really helpful and nothing was too much trouble. If I get any say in choosing venues in the future, I will definitely be recommending we come back!"
